Service Authorities Council

## Australian Bushfire Areas

Name: \_\_\_\_\_

Research to find out where major bushfires have occurred in Australia over the last 10 to 20 years. Mark the locations on the map below. Colour code the map using the following key:

Red = High number of bushfire events

Orange = Moderate number of bushfire events

Yellow = Low number of bushfire events

Green = No bushfire events

Use an 'X' to identify local risk areas.
